CONTRACT MATTRESSES

Kingston

PROUDLY
BRITISH MADE
MATTRESSES

Kingston are a family operated company, who have been involved in design to manufacture of beds and mattresses for over 20 years.

We take pride in each handcrafted mattress, using modern manufacturing methods incorporated with traditional craftsmanship and experience we have acquired over the past 20 years.

The Kingston collection of mattresses caters for all requirements, covers all budget and are great value for money! We use the finest materials and check our products for consistency and quality, we're confident they provide the ultimate sleep experience at a cost effective price.

All our mattresses are manufactured to contract quality and covered in fabrics flame retardant to source 5. They are made here in the UK following all UK Regulations.

We at Kingston are dedicated to benefiting both landlords and their tenants alike. We have been working closely with estate/letting agents, private landlords, property developers (and their tenants), charities and housing associations for over 20 years.

We provide an expert furnishing service that benefits all involved. We provide modern, durable and cost effective furniture which is delivered, assembled, installed, old recycled and packaging removed. A complete service!

The Highlander mattress is known for its stable support and comfort for those who are looking for a well rested nights sleep. The Highlander mattress combines traditional open coil spring system with an innovative reflex foam layer for a sleeping surface that prioritises your comfort and support. Reflex foam is a high-density foam that is very flexible and regains its original shape very quickly and it will also adapt to your body shape and help provide good spinal alignment.

MEMORY ORTHO

SINGLE	£169
4FT/DOUBLE	£229
KING	£269

ALL PRICES PLUS VAT

The Memory Ortho Mattress uses a 12.5 gauge spring unit for a firm support. The surface of the mattress has a 25 mm layer of memory foam to give the mattress an overall medium to firm tension. The frame of the mattress is strengthened with a rod wire so you are supported right to the sides of the mattress. It has a Pillow Box design, breathable vents and side handles so the mattress can be easily moved into position and rotated (not turned). All the fillings in the mattress are held securely in place with a hand tufted finish.
